

Kinetic Massage of The Neck

Facilitator: Linda Hoppe

About the Instructor:

As CEO and co-founder of Seminars for Health, Linda has utilized her 20+ years of experience to acquire the best instructors to develop courses exclusive to Seminars for Health. Linda has an innate gift of instruction as well as developing courses that are comprehensive and challenging, yet achievable. Her course delivery is clear, confident and caring.

One of Linda's many accomplishments is creating the **Advanced OM (Orthopedic Massage) Certification** program. Linda's published *Dynamic Muscle Base* and *Kinetic Method* principles of treating within Advanced OM are created by Linda Hoppe, executing premium muscle therapy. Linda's passion to elevate the profession of massage therapy is evident through her creation and offering of high-quality continuing education courses. Her expertise spans over two decades of treating, instructing internationally and being closely involved with the massage industry's best instructors. Linda has had extensive involvement with Mount Royal University in curriculum and course development. As a Lead Instructor she taught Musculoskeletal Anatomy, Gross anatomy, Deep Tissue Massage, Arthrology, Advanced Massage Techniques, Treatment, Clinical Internship and Kinetic Massage.

In addition, Linda has extensive clinical experience in Spain, Quebec and Alberta and holds a degree in Kinesiology from the University of Calgary, a three-year diploma as a Physiotherapy Technician from Quebec and is a Massage Therapy graduate from Mount Royal University.

Course Information:

Kinetic Massage of the Neck course consists of massaging with very precise movements to target not only the muscles but also the joints. It incorporates specific massage strokes with dynamic joint movement. This is an excellent advanced approach with proven results that your clients will strongly benefit from. Optimally treat stubborn pathologies with Kinetic Massage of the Neck techniques and approach. Your clients will feel the difference.
