

Laurie Niles, Aromatherapist

By 2003, my passion to learn more about aroma therapy started my global two-year research. So, I graduated July 2006 from an Aromatherapy program offered from WCIA (B.C). Bev is the owner of WCIA and was on the boards of BCAPA and BCAOA from the beginning for ten years while I stepped into this history in 2004 here in Alberta I was exploring the wonders of aromas and felt I was in good hands to learn from her knowledge. Metro Continuing Education became the next step to learn how to do workshops so after 33 hours of classes I had a basis to start teaching adults the wonders of essential oils.

By 2007, Alberta Aromatherapy was a recognized school with Natural Health Practitioners of Canada (NHPC) and by 2015 we created continuing education courses called Acupressure & Essential Oil therapy for four conditions that massage therapists face in their practice (fibromyalgia, carpal tunnel, TMJ and frozen shoulder. This has helped bridge the gap and uplifted many practitioners to the possibilities...

Today, as a full time teacher and owner of Alberta Aromatherapy Institute in 2017/18, with membership with BCAPA (British Columbia Association of Practitioner Aroma therapist),NHPC and MTAA membership we plan to continue to create more Acupressure & Essential oils courses for continuing education for NHPC| RMTA|MTAA today we offer an Aromatherapy Certificate of 690 hours [aroma 101 to aroma 401](#). Join us and enrich your practice!
